

KA DEGREE

AI & Full-Stack Career Program

Become an Industry-Ready Software Engineer in Just 3 Months

Program Fee: ₹14,999 Only

Other Courses Charge ₹50,000 – ₹2,00,000

■ Next Batch	■ Duration	■ Classes/Week	■ Session	■ Mode
18 July	3 Months	4–5 Days	1–2 Hours	Online Live

WHY KA DEGREE?

Most AI and Full-Stack courses in the market cost ₹50,000 to ₹2,00,000 and focus only on teaching technology. **KA Degree** bridges the gap between education and employment — with practical learning, real-world projects, AI-powered development, and dedicated placement support.

■ AI-Powered Full-Stack Development	■ Mock Interviews (Tech + HR)
■ Industry-Oriented Curriculum	■ Resume & LinkedIn Optimization
■ Real-World Project Development	■ Career Mentorship
■ Live Coding Sessions	■ Dedicated Placement Assistance

COMPLETE LEARNING ROADMAP

01

Front-End Development

HTML5

CSS3

Bootstrap

JavaScript ES6+

- Responsive Web Design
- DOM Manipulation
- Forms & Validation
- Fetch API
- Async Programming
- Modern UI Development

02

React Development

React

JSX

React Hooks

- Components & Props
- State Management
- React Hooks
- Routing
- API Integration
- Authentication
- Protected Routes
- Deployment

03

Backend Development

Python

Flask

FastAPI

- OOP Concepts
- File Handling
- REST APIs
- CRUD Operations
- JWT Authentication
- API Testing

04

Database

MySQL

PostgreSQL

- Database Design
- Relationships
- CRUD Operations
- SQL Joins
- Query Optimization

05

Git & GitHub

Git

GitHub

- Version Control
- Branching
- Pull Requests
- Collaboration
- Portfolio Management

06

Data Structures & Algorithms

Arrays

Trees

Graphs

- Arrays & Strings
- Linked Lists
- Stack & Queue
- Trees
- Sorting & Searching
- LeetCode Practice

07

System Design

Architecture

CI/CD

REST

- Client-Server Architecture
- REST APIs
- Authentication
- Database Design
- Deployment
- CI/CD Basics

08

AI for Developers

ChatGPT

Copilot

Prompt Eng.

- Prompt Engineering
- AI Code Review
- AI Debugging
- AI Application Dev
- Productivity Automation
- MCP Integration

BUILD 5 INDUSTRY-LEVEL PROJECTS

01

Project 01: AI-Powered OCR Expense Management System

Build a complete AI-powered OCR application that extracts invoice and receipt data.

React	Python	Flask/FastAPI
SQL Database	REST APIs	AI Integration

02

Project 02: Smart Expense Tracker

Full-stack expense management app with authentication, dashboards, analytics, and AI-powered expense categorisation.

React	Python	Authentication
Analytics	AI Categorisation	

03

Project 03: AI Application with MCP Server

Build AI applications using the Model Context Protocol (MCP), integrating AI models with backend services.

MCP Protocol	AI Models	Backend Services
External Tools		

04

Project 04: AI Chatbot

Create an intelligent chatbot using Prompt Engineering, AI APIs, backend integration, and conversational AI.

Prompt Engineering	AI APIs	Backend Integration
Conversational AI		

05

Project 05: Professional Portfolio Website

Design and deploy a professional portfolio showcasing projects, GitHub repositories, resume, and technical skills.

HTML/CSS/JS	React	GitHub
Deployment	Personal Branding	

DEDICATED PLACEMENT & CAREER SUPPORT

Our commitment doesn't end after the course. We continue supporting students **until they become interview-ready and land their job.**

■ Daily Job Notifications	Receive daily updates on fresher and experienced openings from startups, service-based companies, product companies, and MNCs. Students get direct notifications and can apply immediately.
■ Internship Opportunities	Access real internship opportunities that provide hands-on experience and strengthen your resume before full-time placement.
■ Resume & Profile Optimization	ATS-Friendly Resume • LinkedIn Profile • GitHub Portfolio • Naukri Profile • Indeed Profile • Personal Portfolio Website
■ Mock Interviews	Technical Mock Interviews • HR Mock Interviews • Coding Assessments • Communication Skills Training • Personalised Feedback
■ Career Mentorship	One-on-one guidance on Career Planning, Technology Selection, Interview Strategy, Salary Negotiation, and Professional Growth.
■ Referral & Placement Support	Daily Hiring Updates • Referral Opportunities • Interview Scheduling • Application Guidance • Career Support Until Placed

INDUSTRY EXPOSURE & EXPERT SESSIONS

■ Senior Software Engineers	■ Product Engineers	■ Industry Experts
■ International Tutors	■ HR Professionals	■ Live Guest Sessions

PROGRAM OUTCOMES

■ AI & Full-Stack Development Skills	■ Technical Interview Readiness
■ 5 Industry-Level Real-World Projects	■ Industry Exposure via Expert Sessions
■ Professional GitHub Portfolio	■ Career Mentorship
■ ATS-Friendly Resume	■ Placement Assistance Until Placed
■ Optimised LinkedIn Profile	

WHO CAN JOIN?

BCA	B.Sc	B.Com
BE / B.Tech	MCA	M.Tech
Fresh Graduates	Career Switchers	Job Seekers

No prior programming experience required.

YOUR MENTOR

Industry Experts	■ Senior Software Engineers ■ Product Engineers ■ Project Owners ■ HR & Recruitment Professionals
